

SILLITIN

Manufacturer	HOFFMANN MINERAL GmbH Muenchener Strasse 75 86633 Neuburg a. d. Donau, Germany Phone +49 8431 53-0 www.hoffmann-mineral.com
Trade Name	SILLITIN V 85 SILLITIN V 88 SILLITIN N 75 SILLITIN N 85 / SILLITIN N 85 puriss SILLITIN N 87 SILLITIN Z 86 / SILLITIN Z 86 puriss SILLITIN Z 89 / SILLITIN Z 89 puriss SILLITIN P 87 / SILLITIN P 87 puriss
Product Identifier	Neuburg Siliceous Earth
CAS No.	1020665-14-8
EG-No.	310-127-6 (Naturally Occurring Substances)

1. Mineralogical Composition

Based on X-ray diffraction pattern analysis combined with Rietveld.

Chemical Name	INCI	CAS-No.	Concentration
Cryptocrystalline Silica (alveolar dust quantity: < 0.1% by weight)	SILICA	7631-86-9	50 - 75%
Kaolinite / Kaolin	KAOLIN	1318-74-7 / 1332-58-7	10 – 35%
Amorphous Silica	SILICA	7631-86-9	5 – 10%
Mica	MICA	12001-26-2	2 – 8%

2. International Regulations

Our products comply with:

- Directive (EU) 2015/863 amending Annex II to Directive 2011/65/EU (RoHS 3) (latest version)
- ELV Directive 2000/53/EC (latest version)
- WEEE Directive 2012/19/EC (latest version)

Our products are not subject to:

- Biocidal Products Regulation (EU) No 528/2012 (latest version)
- Dual-Use Regulation (EU) 2021/821 (latest version)
- Explosives Precursors Regulation (EU) 2019/1148 (latest version)
- Ozone Regulation (EC) No 1005/2009 (latest version)
- PIC Regulation (EU) No 649/2012 (latest version)
- Regulation (EU) 2023/1115 on deforestation-free products (latest version)

3. International Registration Status

Our products are listed in or exempt from the following substance inventories and regulatory schemes:

- AIIC (Australia)
- DSL (Canada)
- ENCS (Japan)
- IECSC (China)
- KECI (Republic of Korea)
- KKDIK (Turkey)
- NZIoC (New Zealand)
- PICCS (Philippines)
- REACH (European Union)
- TCSI (Taiwan)
- TSCA (USA)
- UK REACH (Great Britain)

4. EU REACH — Regulation (EC) No 1907/2006

Status of Registration

Due to their natural origin our products are covered by Article 2, Paragraph 7, Subletter b of the REACH Regulation. Therefore, they are **exempt** from the obligation to register under REACH.

SVHC Confirmation

Our products **do not contain** any substances included in the Candidate List of **SVHC** in its current version above 0.1% w/w (based on the latest ECHA publication).

Restrictions and Authorisations

Our products **do not contain** any substances listed in **Annex XIV** and **Annex XVII** in the current valid form.

5. CLP — Regulation (EC) No 1272/2008

Our products are not classified according to the CLP Regulation. For more details, see our voluntary Safety Data Sheet (SDS).

Due to a cryptocrystalline silica alveolar dust content of < 0.1 % by weight (DIN EN 15051-3), classification in accordance with CLP Regulation is not required.

Our products do not contain titanium dioxide in concentrations above 1 % (w/w), therefore Regulation (EU) 2020/217 - 14.ATP of CLP-Regulation does not apply.

6. California Proposition 65

Our products may contain a chemical known to the State of California to cause cancer:

- Silica, crystalline (airborne particles of respirable size)

Nevertheless, the amount of respirable cryptocrystalline silica A-dust is <0.1% by weight (DIN EN 15051-3).

7. Nanomaterials, Directive 1223/2009/EC Regulation (EU) 2017/745 French Decree N°2012-232

The above-mentioned European Regulations, including the French Decree, define 'nanomaterial' as "a natural, incidental or manufactured material containing particles in an unbound state or as an aggregate or as an agglomerate and where, for 50 % or more of the particles in the number size distribution, one or more external dimensions is in the size range 1-100 nm."

Based on this definition our products are no **nanomaterials**.

8. Heavy Metals

Our products do not contain **antimony, arsenic, barium, cadmium, chromium VI, cobalt, lead, mercury, selenium**, or their compounds or residual elements in concentrations exceeding 0.01% (w/w) (mercury not exceeding 0.005% (w/w)) of the total ingredients.

9. Miscellaneous Substances

Our products do not contain, nor do we intentionally add, any of the following substances:

- 1,4-Dioxane
- ADI (Animal Derived Ingredients)
- Allergens or precursors of allergens according to Regulation (EC) No 1223/2009, Appendix III, and any other substances known as allergens based on the current state of knowledge
- APEOs (Alkylphenolethoxylates)
- Asbestos or asbestiform minerals
- Bisphenols
- Conflict minerals (tungsten, tantalum, tin, gold)
- DMF (Dimethyl Fumarate, CAS 624-49-7)
- Epoxy derivatives
- Formaldehyde (CAS 50-00-0) and acetaldehyde (CAS 75-07-0)
- GMO (Genetically Modified Organism)-derived substances
- Halogenated compounds
- Hazardous air pollutants (as defined by international regulations known to us)
- Ionizing radiation-treated substances
- Isothiazolinone compounds
- MOSH (Mineral Oil Saturated Hydrocarbons) and MOAH (Mineral Oil Aromatic Hydrocarbons)
- N-nitrosamines, nitrosatable amines and aromatic amines
- Ozone-depleting chemicals
- PAHs (Polynuclear Aromatic Hydrocarbons and Polycyclic Aromatic Hydrocarbons)
- Palm oil
- PBT and vPvB substances
- PFAS (Per- and Polyfluoroalkyl Substances)
- Phthalates
- POP substances according to regulation (EU) 2019/1021
- Silicones

Please note that this confirmation applies exclusively to the product itself. Due to the complexity of supply chains, we are unable to guarantee the same level of confirmation for packaging materials or operational supplies. We appreciate your understanding.

10. GADSL substances (Global Automotive Declarable Substance List)

The products contain a GADSL-listed substance: Silicon dioxide (CAS 7631-86-9; entry 113)

11. VOC

Our product does not contain volatile organic compounds (VOCs) as defined by Directive 2010/75/EU.

12. Animal Testing

Our products are not involved in any kind of animal testing.

13. Food Contact

Our products could be used in food and drinking water materials in compliance with following regulations and recommendations:

- BfR Recommendations on Food Contact Materials XXI, LII, XXXVI and XIV (latest version)
- FDA Regulations / 21 C.F.R. (latest version)
- MERCOSUR/GMC/RES. N° 39/19 (latest version)
- Regulation (EU) 10/2011 (latest version)
- Regulation (EU) 1935/2004 (latest version)
- Swiss Ordinance on Food Contact Materials 817.023.21 (latest version)
- Evaluation criteria for plastics and other organic materials in contact with drinking water (KTW-BWGL) (latest version)
- Italian Decreto Ministeriale of March 21, 1973 (latest version)
- Resolution RESAP (2004) 4 (latest version)
- Directive (EU) 2020/2184 (latest version)

Please note that further terms and conditions must be considered to comply with specific regulations, recommendations, and applications. For further information, please contact our Product Safety Department at erp@hoffmann-mineral.com.

14. Toy-related Safety Requirements

Our products comply with:

- TPCH requirements of CONEG:
lead, mercury, cadmium, and hexavalent chromium concentration levels do not exceed 100 parts per million by weight
- 16 CFR 1303:
lead concentration does not exceed 0.009 percent
- EN 71-3:2021-06:
cadmium, mercury, arsenic, chromium(VI) and lead concentration levels do not exceed Category III limits

15. Summary Confirmation

All information and statements provided in this Product Safety Information are believed to be accurate at the time of publication.

For additional information, please consult the Safety Data Sheets and Technical Information of our products.

If you have any further questions regarding Product Safety Information do not hesitate to contact our Product Safety Department at erp@hoffmann-mineral.com.
